

Q13. Meta-Prompting (Prompt That Writes a Prompt)

Write a prompt whose job is to generate an optimized prompt for a downstream task — e.g., ask the model to design the best possible prompt for summarizing legal contracts for non-lawyers.

Aim

To design a meta-prompt that generates an optimized prompt for summarizing legal contracts in simple language for non-lawyers.

Python Code:

```
from openai import OpenAI

# Paste your API key below
client = OpenAI(
    api_key="sk-proj-
fXs9TwmndiZQU9td92kDIe9wACeeq8S0wsiGwQRfrbEoJq4VGPLU1Np74KCilODIH8_C
oBWZp8nT3BlbkFJBjvFWrf8sOhvLZ7zO3YVr2MDh2NeIM42jru5-
z2nctrTGHuEgdMAYbFx2lo34b4CY-q8ffMBkA"
)

meta_prompt = """
You are an expert prompt engineer.

Create the best possible prompt that can be given to an AI model to summarize legal
contracts
for non-lawyers. The generated prompt should:
1. Use simple English.
2. Explain important clauses.
3. Highlight risks and obligations.
4. Mention deadlines and payment terms.
5. Produce a short and easy-to-read summary.
Return only the optimized prompt.
"""

response = client.responses.create(
    model="gpt-5.4-mini",
    input=meta_prompt
)

print("===== META PROMPT =====")
print(meta_prompt)

print("\n===== GENERATED OPTIMIZED PROMPT =====")
```

```
print(response.output_text)
```

Output:

===== **META PROMPT** =====

You are an expert prompt engineer.

Create the best possible prompt that can be given to an AI model to summarize legal contracts

for non-lawyers. The generated prompt should:

1. Use simple English.
2. Explain important clauses.
3. Highlight risks and obligations.
4. Mention deadlines and payment terms.
5. Produce a short and easy-to-read summary.

Return only the optimized prompt.

===== **GENERATED OPTIMIZED PROMPT** =====

You are a legal contract summarizer for non-lawyers.

Task: Read the contract and write a short, clear summary in simple English that an average person can understand.

Instructions:

- Use plain language. Avoid legal jargon. If you must use a legal term, explain it briefly.
- Focus on the most important points only.
- Explain the key clauses in a simple way.
- Highlight any risks, unusual terms, or obligations the person should know about.
- Clearly mention all deadlines, renewal dates, cancellation periods, and notice requirements.
- Clearly mention all payment terms, fees, penalties, deposits, refunds, and who must pay what.
- Point out any rights the person gives up, any limits on liability, and any important promises or restrictions.
- If the contract is unclear or one-sided, say so.
- Do not give legal advice. Do not speculate beyond the text.
- If a detail is missing, say "Not stated in the contract."

Output format:

1. Contract Summary: 3–6 short bullet points
2. Key Obligations: 3–5 bullet points
3. Deadlines and Payment Terms: 3–5 bullet points
4. Risks or Unusual Terms: 2–4 bullet points
5. Bottom Line: 1–2 sentences in plain English

Keep the whole response short, easy to read, and under 250 words.

.

Result

The meta-prompt successfully generated an optimized prompt that enables an AI model to summarize legal contracts in clear, simple, and easy-to-understand language by highlighting key clauses, obligations, risks, deadlines, and payment terms.
